Can I see the script one more time to see how much we told them?

Lee,

I just spoke to Marie about this situation. We were thinking maybe I can call this individual and state that although I cannot give out details at this point, the cancellation notice will go into more detail than provided in the voicemail message I left him. The posting may not be the level of detail he wants, but it will be the level of detail we are able to provide. And I would encourage him to wait for the cancellation notice to be posted.

Thoughts?

Thanks,

Jack L. Peterson

Lee / Marie,

I just forwarded you both a voicemail message from Sealand Enviro that proposed on the Newton County solicitation.

They stated if we are not able to elaborate on why the solicitation was cancelled they will submit a FOIA.

Please let me know how you'd like me to handle.

Thanks,

Script - Site Specific Solicitations Canceled

Mr./Ms. _____,

My name is Jack Peterson and I'm a Contracting Officer for EPA Region 7. I'm calling in reference to solicitation SOL-R7-13-00018, Newton County Mine Tailings. Your company submitted a proposal on this solicitation.

I wanted to let you know that this solicitation has been canceled in its entirety. A cancellation notice will be posted on the FebBizOps website and your company will receive a letter which provides formal notification that the solicitation was cancelled.

Although I can't get into the details of this matter, I can tell you that in general, the decision to cancel this solicitation was a management decision made after significant consideration and discussion. Should EPA decide to re-solicit, all information regarding the requirement will be included in the official solicitation and be posted on the FedBizOps (www.fbo.gov) and FedConnect (www.fedconnect.net) websites. You are encouraged to monitor these websites.

I apologize for any inconvenience this may have caused and I hope your company considers proposing on future solicitations.
